Caring International Nonprofit-An Introduction

Caring International Nonprofit (CINP) is the realization of my life-long dream to relieve pain and anxiety and to enhance the lives of those who need help the most. In this pursuit CINP was founded upon three pillars:

Our Mission:

“To relieve pain and suffering for those who need our help the most.” Though it may seem cliché, it is true that oral health is a gateway to happiness and systemic wellbeing. What we eat, how we speak, when we smile, when we laugh and our own self-image are all components of oral health. The patients we help-refugees, veterans, special needs, low income families and others-are at great risk in each of these areas. Many feel little reason to smile. Many are malnourished. Many live in constant debilitating pain. This must change and it is our mission to change it.

Infrastructure/Efficiency

CINP uses every donation as efficiently as possible. Our board of directors is entirely volunteer. We do not maintain a clinic or a brick and mortar facility. Our web team donates a significant amount of their work at no charge. Most significantly, we rely on existing care and infrastructure models across the nation and beyond to accomplish our goals. Thus, our costs are minimal and our ability to serve our fellow human beings is maximized. In this way we really are able to change the world, one patient, one procedure at a time.

Scalability/Sustainability

Our organization was designed for tremendous scalability. Through independent doctor/patient relationships we obtain funding (via the “Care Package” program-details available at CiCoalition.com) and distribute these funds via our grant application system at CaringInternational.com. Briefly, these “Care Packages” provide a valuable service to dentists and their patients in a way that also incentivizes ongoing donations from them. CINP then distributes these donations to qualified applicants by verifying that they meet needs criteria and sending payment to their providers once the care has been provided. We developed this model specifically because it is efficient, empowers patients and their providers, facilitates implementation remotely, and is easily adaptable across geography, provider philosophy, needs profiles.

In these ways Caring International Nonprofit incentivizes ongoing donations from a wide variety of willing donors, utilizes funds with tremendous efficiency, and is set up for a large degree scalability and growth.

We hope you'll join us in our pursuit to relive pain an suffering for those who need it most by donating or joining the Caring International Community at CaringInternational.com. Please feel free to contact us directly with questions or to schedule a CINP board member as a lecturer. We will be thrilled to help you change the world one patient, one procedure at a time.
